Anti-Human CD11c (BU/15)

PRODUCT DESCRIPTION

Clone: BU-15;

Isotype: IgG1;

Tested application: flow cytometry;

Immunogen: The anti-CD1Ic monoclonal antibody derives from Synovial fluid dendritic cells:

Species reactivity: Human;

Storage instruction: store in the dark at 2-8 °C;

Storage buffer: aqueous buffered solution containing protein stabilizer and 0.09% sodium azide (NaN.);

Recommended usage: Immunostep's CDIIc, clone BU-I5, is a monoclonal antibody intended for the identification and enumeration of human leucocytes using flow cytometry. This reagent is effective for direct immunofluorescence staining of human tissue for flow cytometric analysis using I test for IO⁶ cells;

Presentation: liquid;

Source: Supernatant proceeding from an in vitro cell culture of a cell hybridoma;

Purification: Affinity chromatography;

Other names: CR4, pl50, 95, Integrin alpha-X, CDII antigen-like family member C, Leu M5, Leukocyte adhesion glycoprotein pl50,95 alpha chain, Leukocyte adhesion receptor pl50,97;

Gene ID: 3687;

Molecular weight: 145 - 150 kDa.

2. ANTIGEN DETAILS

Large description: Human CDIIc (alpha X integrin) complexes with CDI8 (beta2 integrin) to form the complement receptor type 4 (CR4) heterodimer which binds to fibrinogen and is involved with monocyte/granulocyte adhesion during inflammatory responses. CDIIc expression is restricted to leukocytes mainly of myeloid lineage with highest expression on macrophages.^[1-4]

WARRANTY

Warranted only to conform to the quantity and contents stated on the label or in the product labelling at the time of delivery to the customer. Immunostep disclaims hereby other warranties.

Immunostep's sole liability is limited to either the replacement of the products or refund of the purchase price.

4. ADDITIONAL INFORMATION

For research use only. Not for diagnostic use.

Not for resale. Immunostep will not be responsible of violations that may occur with the use of this product. Any use of this product other than the specified in this document is strictly prohibited.

Unless otherwise indicated by Immunostep by written authorization, this product is intended for research only and is not to be used for any other purpose, including without limitation, for human or animal diagnostic, therapeutic or commercial purposes.

Please, refer to www.immunostep.com technical support for more information.
